

# DRAGON'S CLAW

Handmade in Italy

by *Cinzia Bagolini*

## How to know my ring size?

You can measure your ring size using a piece of jewelry that you already have and that you know it fits you well.

- 1 Print this ring size chart making sure that your printer's dialog box doesn't show the "fit for size" selected. The print dimension must be set on 100%. Verify the metric scale below measuring it with a ruler in order to know if the print dimension is correct;
- 2 Place your ring on the circles until you find the one that matches up with the inner circumference of your ring;
- 3 If in doubt between two sizes, choose the bigger one;
- 4 When purchasing indicate the size corresponding to the number inside the circles.

### RING SIZE CHART

*Place here your ring!*
